iBidPro

Contractor registration is just a click away with Gilbane's iBidPro.

▸ Gilbane's proprietary online procurement system is an application that streamlines the bidding process to save both time and money for our clients and subcontractors. Subcontractors use iBidPro to submit bids and Request for Information (RFI) online, while Gilbane can instantly view and/or respond to the bids and any queries.

▸ Online data retrieval is quick and convenient, so subcontractors have more time and flexibility to submit their competitive bids. All trade contractors must pre-qualify using this online process to be eligible to receive bid invitations, proposal forms, and other information on construction projects.
